

## ANCHOR – Reeperbahn Festival International Music Award

### The accolade for the most promising international emerging talents

The ANCHOR – Reeperbahn Festival International Music Award is the accolade for the most promising emerging music talent established in 2016. Awarded every year in September at Reeperbahn Festival in Hamburg, Germany, ANCHOR offers both fans and the music industry reliable and trusted guidance in their search for the best new music from around the world.

Six international nominees from different genres, selected by a board of music professionals, enter the competition and set out to convince not just the audience but also a prominent jury. Whereas other music awards acknowledge record sales or popularity, the ANCHOR honors unique music quality manifested in the live performances.

In the run-up to the Reeperbahn Festival, a board composed of key actors of the international music industry will select the nominees from the festival program. During their live performances at Reeperbahn Festival, the nominees have to win over a jury of music-world luminaries chaired by legendary David Bowie producer Tony Visconti.

The ANCHOR focuses on the quality of the complete package: the nominees' music, lyrics, and live performance must be outstanding and distinctive. Just being nominated for the ANCHOR is already a tremendous honor! Over the course of three days, the nominees will perform at two venues, playing in front of festivalgoers and the jury, competing for the ANCHOR, which will then be awarded at an entertainment-filled gala on September 19, 2020.

With the ANCHOR, the Reeperbahn Festival provides its artists with an additional platform to showcase their talents and fundamentally advance their careers.

In times when algorithms predict and dictate the taste in music, the ANCHOR re-introduces the concept of expert recommendation and is both a seal of quality and a way to boost popularity for new bands and artists from around the world.
